

God First

God First is a short novel that defines a family's process that assisted them through the COVID-19 pandemic. The Martin Family identified a way to keep their loved ones together through the power of prayer as well as a sense of communion even when resources were limited. If distance is a challenge again, do not let it be! The Martin Family shares their lighthearted experiences filled with laughter, love, and a whole lot about Jesus Christ. This book is a one-hour read in one setting. It is designed, however, to be reviewed over time as you will be inspired to implement some of its discussion points in conversations with your friends and family.
